

Vendor Proposal — Guardian Cyber Ops

Commercial Terms

Total contract value: INR 31,00,000 for an 18-month full-coverage security monitoring engagement.

Payment terms: quarterly billing, no upfront deposit required.

Pricing is fixed for the full contract term.

Service Level Agreement

We guarantee 99.99% platform uptime, the highest tier in our service catalog, with real-time status reporting.

Implementation Timeline

Full onboarding, including endpoint agent deployment across all sites, is completed within 5 weeks.

Support & Incident Response

24/7 white-glove Security Operations Center coverage, with a dedicated Incident Commander assigned automatically for any active incident.

Technical Capabilities

- Native single-console SIEM and EDR — not a bundled third-party product
- AI-driven real-time correlation engine across endpoint, network, and cloud telemetry
- Full read/write REST API and native SOAR integration for automated response playbooks

Compliance & Reporting

Compliance reporting is built in and generated automatically for ISO 27001, SOC 2, and PCI-DSS — no manual configuration required.

Contract Terms

An independent third-party security audit is required annually at the customer's cost, estimated at INR 2,00,000 per year, to maintain premium support tier eligibility.
